

10/2

Bargaining Update!

At our last session on Thursday, we proposed a PTO and holiday system that **ends mandated use of PTO**. In plain terms: if the clinic is closed for a holiday (or otherwise not making work available), **you are paid and your PTO is not used**.

Not surprisingly, Legacy was very opposed, claiming their current approach is "generous."

We are standing firm: if Legacy does not make work available and you were ready and able to work, you should not be **penalized by having to use PTO**.
