

RALLY TIME!

NWMU

We're calling on Legacy to settle our contracts now. We want to stay in our communities and care for our patients, that's all we're asking for. Fair contracts mean safe staffing, sustainable schedules, and the ability to provide the care our communities deserve.

This is a multi-union effort, and NWMU will be on the front lines. Legacy has nearly 50 open union contracts across all sectors, including 10 for NWMU.

Join your colleagues as we take a unified stand for healthcare workers and the patients we serve.
