

First day!

Bargaining Update!

We had our first day at the bargaining table. We presented our full non-economic proposal package, laying out our need for transparency, fairness, and improved working conditions. The session went well, with Legacy agreeing to a handful of our proposals,

We return to the table tomorrow and expect Legacy to bring counters.

After that session, we will send out a detailed summary outlining:

- What has been proposed
- What has been agreed to
- What is still left to bargain

Stay tuned for an update after tomorrow!
