# Bargaining Update!

---

We met with administration on Wednesday to continue bargaining over LIMS.

It was a productive session, and we are making steady progress toward an agreement.

While we are still apart on wages and staffing, we're moving closer to common ground and will keep pushing for fair and competitive compensation and staffing levels our patients deserve.

We meet again next week to continue negotiations.

*Your support and engagement matter, staying united helps us keep the pressure on and secure the agreement we all deserve.*
