

BARGAINING UPDATE

REAL MOVEMENT AT THE TABLE!

Thanks to our hard work and **unity**, we saw real progress at bargaining today.

For the first time in a **long time**, Legacy came back with a proposal that shows they're **listening**. Their latest offer includes:

- Recognition of our commitment to night shift work through shift credit
- Movement on PTO that reflects what we've been fighting for

This is a major step—and it's only happening because we've stayed united.

WE'RE GETTING CLOSE, BUT WE'RE NOT DONE.

Let's keep the pressure on through the final stretch. Keep signing those pledge cards so we can win the contract we, and our patients, deserve.

Together, we're stronger. Together, we win.

Original pickets being rescheduled to a labor day action. Lookout for details soon!
