

IMPORTANT

What Is Happening

We have one bargaining day coming up, but Legacy management has been dragging its feet.

By law, they must provide bargaining dates, yet after multiple requests in the last 2 months, responses have been **very slow or absent.**

Legacy's silence is **stonewalling.** It impedes progress and threatens patients care.

It's time to show Legacy that we're **tired** of these antics and we are **standing united!**
